## ST. JOHNSBURY TOWN REPORT

---

January 28, 1950

The undersigned have examined the accounts of William A. Bemis, Treasurer of the Town of St. Johnsbury, Vermont, for the year ended December 31, 1949, and find the same to be correct. All income has been checked insofar as possible, and proper vouchers showing the nature and propriety of all expenditures were exhibited and have been examined.

The accounts of the School Directors of the Town of St. Johnsbury have been examined and found to be in balance with the accounts of the Town Treasurer.

We have also verified the accounts of Eugene R. Rosselot, Tax Collector, for the year ended December 31, 1949, and the same are in correct balance with the records on file at the Town Treasurer's office.

MILTON L. JULIAN

RUSSELL A. REED

# Town Manager's Report

St. Johnsbury, Vermont, January 1, 1950

To the Honorable Board of Selectmen  
and Citizens of the Town of St. Johnsbury:

I herewith submit for your information and guidance my report of expenditures, receipts and activities of the Town Departments under my jurisdiction for the year ended December 31, 1949.

I also wish to express my appreciation for the cooperation and counsel which has been given me by the Selectmen, citizens and employees of the Town of St. Johnsbury who have shown such an active interest in the work and accomplishments of the departments.

Respectfully submitted,

CHARLES S. SUMNER,

Town Manager.

### BRIDGES

During the past season it became necessary to completely re-deck one of the town bridges on Town Highway #60 known as the Bryer Road, and 560 ft. of 3" y.p. treated Bridge Plank were used on this project.

Early in December a retaining wall on the north-west side of the Hastings Street Bridge collapsed, and although this section of the wall was not a part of the bridge abutment it has been necessary for the town to make temporary repairs for the protection of the bridge itself and the highway leading to and from the bridge. The District Highway Engineer from the Vermont Highway Department and the members of the State Highway Board have been called in and looked the situation over, and the State made an emergency appropriation to assist the town in making the necessary temporary repairs. Up to the close of the year approximately \$1,300.00 has been expended, although the Town and the State do not assume responsibility for the replacing of the retaining wall that collapsed. It was necessary as stated above to protect our bridge and highway and these temporary repairs have been made.

As it became necessary, repairs were made to several of the wooden deck bridges in the Town, and 300 ft. of Plank Decking was used in these repairs.

Applications will be made for State moneys to assist in cleaning and painting the Hastings Street Bridge on Route US 5 this coming summer.

HEALTH OFFICER'S REPORT

I herewith submit my annual report as Health Officer of the Town of St. Johnsbury for the year ending December 31, 1949.

Following is the list of contagious diseases reported, and inspections and investigations made:

Contagious diseases:

Scarlet Fever	11
Chicken Pox	15
Measles	142
German Measles	116
Mumps	2
Meningitis	1
Poliomyelitis	1

Inspections:

Nuisances, Rubbish and Refuse	21
Sanitary	6

Samples of the drinking water were analyzed twice weekly and found to be good.

Respectfully submitted,  
JOHN P. TIERNEY, M.D.  
Health Officer.

VERMONT DEPARTMENT OF SOCIAL WELFARE  
MONTPELIER, VERMONT

In accordance with established custom, we are presenting a summary of State assistance payments during 1949 to individuals applying from St. Johnsbury.

These payments are financed entirely from State and Federal sources except Aid to Dependent Children in which the town or city participates to the extent of 12½ percent and committed children for whom the municipality reimburses the State for one-half the cost. The cost of all programs reflects to a large degree the economic consequences of the devaluation of the American Dollar in terms of purchasing power and its effect on savings and investments.

Approximately 80 percent of all welfare and assistance in Vermont is now paid by the State. Vermont has proportionately fewer individuals receiving aid and smaller average payments than the National average. Over 95 cents out of each public assistance dollar is paid to recipients and less than 5 cents is used for administration. No other State has a better record.

OLD AGE ASSISTANCE	\$46,698.15
AID TO THE BLIND	1,218.00
AID TO DEPENDENT CHILDREN	7,452.35
ADULT CRIPPLED AID	1,122.00
COMMITTED CHILDREN	5,003.96
TOTAL	<hr/> \$61,494.46

W. ARTHUR SIMPSON,  
Commissioner.

## ST. JOHNSBURY TOWN REPORT

---

### POOR DEPARTMENT

During the past year this department has received and granted more assistance than in the past five years. The number of transient persons traveling from one section of the country to another shows a steady increase and our expenses in assisting these people has been the cause of most of our increased expenditures. Another condition that causes considerable concern is the number of old people who have applied for admission to the Almshouse because the Old Age Assistance grants were not of sufficient amount to pay for their board and meet the higher living costs of the present era. Apparently the grant money from the Federal and State is not sufficiently large enough to pay for their board and lodgings in outside homes. Within the last month three elderly people who had been receiving Old Age Assistance grants have been admitted to our Almshouse.

The members of our local Kiwanis Club continued as in the past to give their Christmas Party to the inmates of our Almshouse.

The local Benevolent and Protective Order of Elks gave their usual Children's Christmas Party, and also generously distributed food baskets at Thanksgiving time.

Our local Rotary Club as in the past years gave many food baskets to our less fortunate families at Christmas.

Our veterans' organizations and their auxiliaries have donated food, clothing and money to assist and lighten the burden in several homes in our community.

Our local chapter of the American Red Cross and the Salvation Army have as in the past generously contributed to our unfortunate poor.

The church group societies continue to generously contribute and give assistance to our needy. This group of humanitarian spirited citizens are always keen and alert to give speedy assistance whenever requested.

Again this Christmas Season the St. Johnsbury Mother's Club did an outstanding service to this community when they sponsored and so successfully completed the collection and redistribution of hundreds of toys and useful garments. Their goal was to see that no child was neglected or forgotten at Christmas and this splendid group of women with the assistance of our fire laddies, merchants, local truckmen and all others who participated, successfully accomplished their mission.

## ST. JOHNSBURY TOWN REPORT

---

To the above groups and other individuals who continue to contribute to the welfare of their unfortunate neighbors we manifest our deepest appreciation.

Poor relief, extended to families comprising approximately 85 persons.

160 bushel Potatoes	40 bushel Corn
5 bushel Carrots	15 bushel String Beans
10 bushel Tomatoes	20 bushel Cucumbers
5 bushel Beets	12 bushel Peas

Also raised 100 Chickens and 2 Hogs weighing 600 lbs. dressed.

The usual amount of canned vegetables, fruit, chicken and meat was processed by the Matron. Amount 950 quarts.

## ST. JOHNSBURY TOWN REPORT

---

### HIGHWAY DEPARTMENT

Leading in the list of 'Farm to Market' or unselected highway projects constructed during the past season was the Goss Hollow roadway program on Town Highway #5, beginning at the intersection of the North Danville Highway and extending north to the Goss Hollow schoolhouse bridge, a distance of 1.65 miles. The work consisted of widening the old highway, which was very narrow, to a standard width of at least 18 ft. traveled highway with 2 ft. shoulders each side of the highway. Twenty one new culverts were built, from 10" to 36" in diameter, with an average length of 30 ft. each. Stone headwalls were built using flat field stones and a 1-2-4 mix of Portland cement. Banks on the east side of the project were widened and uniformly sloped and seeded down with grass seed. Proper drainage ditches were built and extend practically the entire length of the east side of the project. It was necessary to blast out and remove 500 cubic yards of ledge. This blasted material was used on the west side of the highway as the base of the bank on the river side of the project to protect river washing into bank slope of highway. Our D-7 Caterpillar tractor cleaned out approximately one mile of Sleeper's River and made a clean channel in this river, pushing the large stones and gravel against the west side of this project to improve the stream flow and prevent washing into highway bank.

4700 cubic yards of bank run gravel was used for base coarse and 2322 cubic yards of crusher run gravel was used for top surface. This material was hauled from the Town Pit in St. Johnsbury Center, a distance of seven miles. 232 six inch Cedar Posts were placed on the west side of project for traffic protection and 50-six foot fence posts with 312 ft. of 2 x 6 Spruce plank were used for guard rails built over culverts. Following is a list showing the number, size and length of the culverts built on this project:

- 1—24" dia. x 30 ft. Armco treated galv. Culvert
- 8—18" dia. using 276 ft. Armco treated galv. Culvert
- 8—15" dia. using 260 ft. Armco treated galv. Culvert
- 4—12" dia. using 150 ft. Armco treated galv. Culverts

480 sticks of Dynamite were used in the ledge removal operation with 231 electric blasting caps. Forty-four bags of cement were used in the construction of our header walls and six other culverts on this project were reinforced and aligned, one of these culverts being 36" in diameter.

Another major project was begun on St. Johnsbury Selected Highway #2 known as the East Lyndon Road, beginning at the intersection of US 2 and extending north towards Lyndon a

## ST. JOHNSBURY TOWN REPORT

---

distance of  $\frac{3}{4}$  of a mile. This project when completed will make all of our selected highways either a surface-treated or black-top type of construction. The road now is narrow and the sight alignment is very bad in many places. This road is now being built a full 18 ft. in riding width with 2 ft. shoulders on each side of highway with proper pitch and drainage culverts installed. The following culverts were built on this project:

1—36" Armco galv. treated Culvert 31 ft. in length

1—30" Armco galv. treated Culvert 31 ft. in length

1—12" Armco galv. treated Culvert 31 ft. in length

One 12" culvert was extended 10 ft., new stone header walls were built on the up-stream side of these culverts, using 15 bags of cement. Eighteen 7 ft. cedar guard rail posts 300 ft. of 6" guard rail plank was used in the building of the guard rails at these new culverts. 1872 cu. yds. of bank run gravel were used in the building of the 6" base of this highway and 644 cu. yds. of selected crusher run gravel was used to place a 2" top surface on this highway.

Our re-surfacing program on the North Danville Road was as follows: From intersection of St. Johnsbury Highway #46 and #3 west to the intersection of St. Johnsbury Highways #3 and #5 a distance of 1000 ft. x 18' wide, a seal coat of MC/3 Asphalt and Peastone was applied using Buckeye spreaders for stone application, Highway was broom-dragged and State roller was used to broad-roll this section. 750 gals. MC/3 and 13½ yds. of Peastone was used.

From intersection of St. J. #3 and #5 west to Danville line a distance of 1600 ft. x 18' wide a seal coat was applied. This was covered with 17½ cu. yds. of washed sand from Calkins pit. The sand on this roadway was applied with Buckeye spreaders to give even cover. The highway was then broom-dragged and this project rolled with State roller. Both of these sections of highway were properly broom cleaned and patched before seal coats were applied.

North Danville Road #3 at the section known as Coreyville a distance of 892 ft. x 18' wide; at the Fish Hatchery Hill a distance of 1200 ft. x 18' wide; at the Heath Farm Hill a distance of 1056 ft. x 18' wide; at the All-Wright Spring Hill section a distance of 1100 ft. x 18' wide; was re-surfaced. The work on these four sections of selected highway #3 consisted of the following: these sections were properly cleaned and patched. An application of MC/2 was applied. This was covered with an application of Peastone three to four inches in thickness,

## ST. JOHNSBURY TOWN REPORT

---

the spreading of Peastone was done with Buckeye spreaders for uniformity and depth. This peastone was then covered with hot asphalt which was immediately followed by a Vermont State grader working it into windrows then bladed to a uniform depth. This was followed by a broom-drag. The highway was then roadrolled to complete blade mix re-surface. Town and Village trucks and employees were assisted on this project by State employees and equipment. District Highway Engineer Paul Stevens rendered valuable assistance to us in recommending and supervising this type of re-surfacing which was new to our employees.

In the Higgins Hill section, beginning at the intersection of St. Johnsbury Highway #75 and St. Johnsbury Highway #1 and continuing east a distance of 1220 ft. x 18' wide, as application of MC/2 was applied the length of this project. It was immediately covered with three inches of Peastone. This peastone was then covered with an application of MC/4 asphalt. This was then blade mixed into windrows for proper mixing of aggregate and then bladed into uniform depth, was broom-dragged then a light application of washed sand was placed over this material using a chipso spreader to distribute the sand equally. The project was then broad-rolled to make a completed blade mix application. 2400 gals. of Asphalt were used and 82 yards of peastone and three yards of washed sand.

Highway improvements were made on Highway #18 in St. Johnsbury Center a distance of about one quarter of a mile. This gravel roadway was widened in some sections and then a mixed-in-place highway was constructed and then given a seal coat. 2375 gals. of MC/4 Asphalt, 56 yds. of peastone from Calkins pit, 60 yds. of bank run gravel and 13 yds. of washed sand was used on this project.

The Crow Hill town section of Town Highway #68 was re-surfaced in August, using 1475 gals. MC/4 Asphalt, 12 yds. peastone and 44 yds. washed sand from Calkins pit.

The extreme drought conditions that existed during most of June, July, August and September made it very difficult to do the necessary road honing and it was very difficult to maintain riding qualities of our usual standard. We have continued the usual road honing and light graveling on all of our back unselected town highways and this coming summer a larger amount of money should become available because of Acts of the legislature passed at the last session. A portion of the one

### ANNUAL REPORT — FAIRBANKS MUSEUM — 1949

I herewith submit my report as Director of the Fairbanks Museum of Natural Science.

During 1949 we received gifts enabling us to purchase a sound projector and to begin free weekly film programs for children. The average weekly attendance at these programs was 250. The films used were mainly free ones but were supplemented by a membership in the Vermont Film Library, fee for which was a gift to the museum.

A summer worker, Mary Gillotti, a sophomore at Massachusetts State University, was hired for eight weeks during the summer. During this time Miss Gillotti taught two classes each week in nature and nature crafts and conducted nature walks, scheduled and unscheduled. Her work was appreciated by about 100 children each week. During this time Mrs. James Platt volunteered to teach a class in clay modeling. This class was attended by 15 children each week.

In the fall, the clay modeling class was continued. Mrs. Platt was hired in the absence of Mrs. Vera Whitney; and a class in water color instituted; taught by Miss Jane Pierce, a graduate student at Lyndon Teachers College, as a volunteer. Miss Lorette Carreau volunteered to instruct in wood carving and a group of 10 children have taken these lessons. All classes are set up on a 12 week basis, the only charge to students being a \$1.00 registration fee.

The cellar room which has been cleared and fitted with fluorescent lights, has been used since September by classes of the Passumpsic Valley Arts and Crafts Guild. A minimum of 60 persons make use of this facility each week, in connection with the Guild program.

One cellar room was renovated to provide a coat room and the lavatory completely cleaned and repainted, as part of the new work undertaken. This was in addition to two new exhibits; a case demonstrating fluorescence and luminescence, and a new electric bird game.

## ST. JOHNSBURY TOWN REPORT

---

Our collection of tropical fish has been increased and has proven a great source of interest. The temperature of both large tanks is now thermostatically controlled, eliminating the danger of loss of valuable specimens. The filtering and aeration devices have also been improved, now including both tanks. We have at this time seventeen species of vertebrate tropical fish displayed.

Other live animals displayed are a four foot red rat snake received as a gift from Leon Baxter and a small milk snake caught by Guilford Kitchel. Salamanders, etc. are also on the main display floor. Animals kept, undisplayed because of limited indoor possibilities, are our descended skunk, and a red tailed hawk, as well as a colony of hamsters. These will again be shown when weather and facilities permit out of doors exhibition.

Repairs to the stonework were begun in March. Only a fraction of the necessary work was completed due to the cost. It is my hope that in 1950 it will be possible to continue, although I realize that we, even now, will be unable to complete it.

Attendance in 1949 was excellent. Guests in the number of 1000 a week came during December. For this I hold accountable our "Christmas Window" made by the children under the direction of Mrs. James Platt. The total number of visitors for the twelve month period was 30,150, an increase of 11,000 over our previous best year. This figure does not include natural science classes from the schools.

I wish to thank the community as a whole for its cooperation and help. I would like also to extend my gratitude to the merchants and individuals whose gifts of materials and funds have made possible the extension of the numerous services.

Respectfully submitted,

FREDERICK H. MOLD,

Director.

Treasurer.

## Librarian's Report

### ST. JOHNSBURY ATHENAEUM

For the Year Ending December 31, 1949

It may be of interest to check our library with the American Library Association, Standard for Public Libraries.

Libraries serving communities of 5,000 to 25,000 should have three books per capita in the book collection. Nine books should be loaned per capita yearly and forty-five percent of the population should be borrowers.

St. Johnsbury Athenaeum meets the requirements with 32,000 volumes, a circulation in 1949 of 79,876 and forty-six per cent of the population active borrowers.

The number of borrowers increased 451 in 1949 making a total of 4,290 borrowers, of this number 1,050 were children.

Thousands of volumes were loaned during the school year at the Portland Street, Arlington, St. Johnsbury Center, East St. Johnsbury and Goss Hollow schools.

An important part of the work with children was the instruction given to the sixth, seventh and eighth grades. The children were taught to use the card catalog, reference books and the index to periodicals. A brief explanatory talk was followed by problems to be worked out by the children.

The work with the Academy continued under the direction of Mrs. Margaret L. Woods. A course in Library Science, including practice questions and tests, was given by Mrs. Woods to all Academy pupils. The number of classes coming to the Athenaeum for this work was thirty-six.

A careful checking of the books in the Reference Room and one of the basement store-rooms resulted in the removal of about 650 volumes. The addition of 600 new books made a total of about 32,000 volumes.

Generous gifts of books were received, many of these were catalogued and added to the permanent collection, others were placed on the shelves as duplicates. Others were put in circulation temporarily.

The Library subscribed to 78 magazines and received 25 as gifts.

## ST. JOHNSBURY TOWN REPORT

---

It is impossible to keep an accurate record of reference questions. The daily record sheet showed nearly 1,000 questions recorded. This represents hours of research, covering a wide variety of subjects. Questions come not only from our townspeople but from all parts of the country, from California and Oregon to Maine.

The renovating of the Reading-room, Reference Room and vestibules, together with the work done in 1948 in restoring the Art Gallery has made the Athenaeum a building of which we all are justly proud.

The guest book showed a large number of visitors through the summer and fall. Thirty-nine states, several Canadian provinces, Hawaii, Porto Rico and England were represented.

The St. Johnsbury Division of the Regional Libraries, established by the Free Public Library Department of Vermont, has desk and stack room space in the entrance hall on the second floor of the Athenaeum Building.

The present schedule of hours at the Athenaeum is every week day from 11 A. M. to 5 P. M. Monday and Saturday the Library is open until 9 P. M.

Sincere appreciation is felt for the gifts of books and magazines and for the expressions of interest and encouragement that have come from many friends of the Library.

Respectfully submitted,

Cornelia Taylor Fairbanks,

Librarian.

## ST. JOHNSBURY TOWN REPORT

---

### BUDGET FOR 1950

We have been planning and improving on a pay as you go basis.

Salaries and tuition costs are to be increased in line with increased costs and increased income.

We are not asking an increase in local tax rate for schools for next year. All budget items are listed on a conservative basis. Several new items have been added to the budget for plowing snow, playgrounds and athletics, visual education and hot lunches.

### NET COST PER STUDENT A.D.A.

The yearly cost for each resident student at the St. Johnsbury Trade School in average daily attendance was \$178.98 for the school year ending July 1, 1949.

The yearly cost for each resident student in the elementary grades in average daily attendance was \$161.52 for the school year ending July 1, 1949.

The cost per student increases if the attendance in school is poor. The state requires us to figure the number of students present on each day regardless of the net enrollment in the school.

Seventy-two per cent of the total cost of the schools is spent for instruction, salaries and instructional materials.

### REPAIRS AND MAINTENANCE

Major repairs and improvements were made at the Center and East St. Johnsbury Schools.

#### Center School—

School building was painted one coat. Cellar walls and coping were rebuilt. Cellar floor was given a new top and the basement lunch room was redecorated.

#### East St. Johnsbury—

Classroom walls and ceilings were covered with sheetrock and both rooms were painted. The chimney and cellar walls were rebuilt. The front steps and porch floor were renewed. The school building was stained and painted. The school yard was filled and graded.

Next summer the outside woodwork on the Arlington School should be painted.

Six rooms at the Trade School and the assembly hall should receive new paint.

## ST. JOHNSBURY TOWN REPORT

---

The Center school should have the fifth and sixth grade room sheathed and painted. The new coverings on the cellar stairways and girls' basement should be painted.

There will be the usual summer cleaning and equipment repairs by the janitors.

### SCHOOL CENSUS AND ENROLLMENTS

The school survey made by request of the State Department of Education shows enrollments beyond capacity in the North Hall and Portland St. Schools. The Portland St. School has forty-one in the first and forty-one in the second grades.

Below are the births in St. Johnsbury since 1941. The second column given is for resident births:

1941 — 218 — 131	1946 — 345 — 180
1942 — 260 — 159	1947 — 445 — 248
1943 — 281 — 163	1948 — 438 — 211
1944 — 266 — 134	1949 — 443 — 211
1945 — 277 — 145	1950 — ? — ?

These increased births will mean over-crowded classrooms, less teacher time and more poor starts for pupils.

We should plan to build a new school building or an addition to the Trade School building for all of the seventh and eighth grade students by September 1952.

This addition with eight classrooms, lunch room and gym for both the junior grades and Trade School could be constructed for \$250,000.00.

The new classrooms would remove the over-crowded condition at North Hall and the Portland St. School.

### TEACHING FORCE

The teachers are helping to mold the nation's future by giving unselfish service to the young people of our community. Most of the members of the town realize the value of this service and should know that we appreciate their cooperation and help.

The work at the Museum, under Mr. Mold's instruction and direction, is receiving much favorable comment by teachers, students and parents.

Plans are underway to improve the coaching and support of recreation and athletics at the Trade School and in the junior grades.

The young people of the community are our best asset.

The reports of the principals, special teachers and the nurse are printed as presented to me.

## ST. JOHNSBURY TOWN REPORT

---

### NATURAL SCIENCE

(Frederick H. Mold)

I respectfully submit my second report as natural science instructor to the third through eighth grades of the St. Johnsbury Public Schools.

The teaching schedule and procedure has remained the same as it has been since the resumption of these classes in 1948, each class coming twice a month, receiving instruction in the same subject matter for a two week period. The amount of work given varies directly as the age of the group.

In the spring as weather permitted, early morning bird walks were added to the work, and were optional for the students. A total of 80 children attended these, coming mainly from the 7th. and 8th. grades. In the fall, the sequence of the orders of life on the earth were used as subject matter.

I should like to take this opportunity to express my gratitude to the school department, whose members have displayed a comprehension to which is attributable the major part of any success experienced in this joint venture.

## ST. JOHNSBURY TOWN REPORT

---

### ST. JOHNSBURY TRADE SCHOOL REPORT

(Lewis J. Streeter, Principal)

I respectfully submit my fourth annual report as principal of the St. Johnsbury Trade School.

The cumulative registration for the current school year is as follows: Freshman 39, Sophomores 40, Juniors 19, Seniors 21, Veterans 34, Post Graduates and Special Students 11. The arrangements for Grades I and II and the Homemaking classes for Grades VII and VIII remain the same as of several previous years with the same efficient teaching staff.

Again our enrollment has increased over the year previous. Much of this increase is due to a larger number of veterans enrolled under the G. I. Bill. In fact, it is safe to say for the remainder of the year, that the school shops have reached the point where the size of the classes for the shop instructors, are too large to secure a satisfactory result in most of the shop programs. In a shop course, a fair teaching load is about 15 students. Class records show that some of the shop classes run into the higher twenties which is too many students per instructor. Academic teachers can teach more pupils in a given class due to the nature of the instruction.

There are practically no opportunities for student employment under the cooperative part-time program. If more opportunities for such employment were available it would alleviate some of the instructional difficulties, due to the size of the classes, in the more popular vocational courses. In some instances it is difficult to create practical shop jobs when all work must be done indoors, as is the case during much of the school year. It is quite probable that it may be necessary to restrict boys from participation in shop programs other than drafting, until they reach the Sophomore year. To carry out this above plan it would presumably require an addition to our already overloaded academic teaching force. We are at present short one related training instructor, making it necessary for the principal to either teach a class, or supervise a study period each period of the day, which is decidedly unsatisfactory.

At present Freshman boys during shop weeks receive their shop training in the nature of an exploratory course.

## ST. JOHNSBURY TOWN REPORT

---

In May vocational aptitude tests were given to all Grade VIII students who seemed interested in attending the Trade School. Some attempt is made to submit the individuals of the various classes to standardized English and vocational tests, but it is very difficult to work out a satisfactory testing program with out limited teaching staff. It would be very much worthwhile if the town of St. Johnsbury would employ a Guidance Director whose duties would be to test, direct, and "follow up" students in the public schools of the town. Much could be said concerning this subject.

A school with as many boys enrolled as will be found in the Trade School needs an Athletic Coach. The present faculty members have given liberally of their time to assist the students in an athletic program with the three major sports. A successful Athletic program requires a person with some training in this field. There are more than enough extra-curricular tasks for all of the teachers, even if they were relieved of the task of coaching the varsity teams. At present the athletic situation at the Trade School is not a desirable one.

There are other school matters which could be discussed in this report, perhaps more profitably than the above. However, in spite of certain handicaps, of which no organization is without, it is the candid opinion of the principal that the Trade School is making satisfactory progress toward the ultimate goal of developing a better trained citizen.

In conclusion, I wish to express my sincere appreciation to the students, parents, school committee, superintendent, and teachers for their cooperation during the past year.

### MUSIC

(Teresa Grace)

I respectfully submit the following report.

The music curriculum serves as a means of integrating the child's personality through a rich variety of musical experiences by helping him to secure his correct singing voice; develop graceful rhythmic response to music; develop an interest in instrumental music; and develop genuine love for and appreciation of good music.

Rhythmic expression through singing, Dalcroze Eurythmics, folk dances and rhythm bands has been stressed throughout the entire elementary program. Square dancing has been introduced in the seventh and eighth grades.

Individual attention has been given whenever necessary to develop free and correct use of the voice in singing. Syllables, taught by the "song method", are introduced at the beginning of the second grade and continued through grade five. Ear training for development of tonal and rhythmic thinking is included in the program from grade two through grade six. Two part singing is introduced in grade five; three part singing in grade six and continued through grades seven and eight; four part singing is introduced in the Junior High.

The aim of the appreciation program which is continued in all grades, is to develop desirable attitudes toward music by providing for the growth of skills and knowledge to promote these attitudes. The appreciation program for grades five through eight are based on the text, "Making Friends with Music" and several records have been purchased.

The Trade School Glee Club has been continued and we hope to participate in the Hilldale League Festival and the Burlington Festival.

The Junior High orchestra has been continued.

Fifteen grades participated in the Folk Dance Festival which was held in May. Proceeds from the Festival have been used to purchase records. The children have gained valuable experience and happiness from the Christmas programs, P. T. A. programs and other programs in which they have taken part.

I wish to thank Superintendent Adams, Mrs. Burgess, and the teachers for their kindness and excellent cooperation.

### ARLINGTON SCHOOL

(Madeline V. Russell, Prin.)

The fall term opened September 6th. with a total enrollment of 122 pupils. Grades 7 and 8 were transferred to North Hall leaving the first six grades, with one grade to a room. This greatly helped the over-crowded rooms in the primary grades. Miss Ruth Holmes joined our teaching staff for grade two, and Mrs. David Silsby transferred from Grade 8 to North Hall. The rest of the staff remained the same with some changes in grades.

The regular curriculum has been followed with the following items deserving mention:

The milk program has been in progress since November 14th, with a daily average of 110  $\frac{1}{2}$  pint bottles of chocolate and plain milk being served. Apples have also been served at recess time.

Mrs Eunice Martin, R.N., our school nurse, deserves much credit for her efficient work. Under her supervision there have been immunizations for small pox and diphtheria, health examinations and dental work. We appreciate the time and effort given by Dr. Gould and Dr. Reed, and Mrs. McNamara, R.N., and Mrs. Willard, R.N., for assisting.

Mr. J. Leo Messier comes every Tuesday to give instrumental lessons.

Mr. Mold, science instructor, has made his work very instructive and interesting for all classes.

Mrs. Campbell and Mrs. Blodgett at the Athenaeum gave the sixth grade lessons in using reference books, indexing and the card catalogue.

Mrs. Campbell assisted by Mrs. Brunelle, brings library books to the schoolhouse every second Thursday.

The school patrol made up of six members from the sixth grade has functioned successfully.

Mrs. Ava Burgess, Assistant Director of Health and Physical Education, spent two days with us helping each teacher with her physical education plans.

At Christmas the grades entertained parents and friends with plays, choruses, and an operetta. Miss Teresa Grace, music instructor, directed the music.

In closing I wish to express my sincere thanks and appreciation to Superintendent Frank R. Adams, the teachers, the janitor, and the children and their parents, for their helpfulness, cooperation and understanding.

### PORTLAND ST. SCHOOL

(Eleanor Dahlbergh, Prin.)

School opened on the beautiful fall morning of September 6, with 238 children enrolled in the eight grades, and the regular teaching staff on duty, there being but two changes made during the summer, Mrs. Norma Chase coming to the sixth grade and Mrs. Lucy Birch transferring to the seventh. Since then, the enrollment has reached 250, the largest in the fifty years history of the school.

All during the year the teachers have striven earnestly to foster and develop the intellectual, emotional and social promotion of their pupils, and no day goes by without one or more classes coming under the tutelage of the special teachers of natural science, music, manual training, home economics, nursing and the Athenaeum. Each Friday afternoon an average of two movies from the Robert Hull Fleming Library Fund are shown to a responsive audience. A handy View-Master Projector, with several new films has recently been purchased, the chief value of this visual aid being that the slides may be shown to individual grades.

Since the middle of November 5,440 half-pint bottles of Kilfasset Farms chocolate and plain milk have been served at mid-morning, and the 45 fortunate bus children, who enjoy a Type A Lunch served by Mrs. Flossie Beck, have been benefited immensely. Much credit should be given to these children who so willingly do their share of the work required to make these hot lunches a success.

Several projects have been sponsored by the P.T.A.; a more attractive girls' basement, well-attended seventh and eighth grade square and ball-room dances, the hot lunches and a skating rink, well patronized whenever the weather permits.

On January 11, the children enjoyed a holiday and the teachers enjoyed a visit to the schools of Barre and Montpelier.

To the casual observer, the pleasures and problems of each succeeding school day may seem routinely similar. Such is not the case. Because people are not static, the life of a school is not. It could not be otherwise, nor would we wish it. And so, to all those who have helped to make the school year thus far a period of progress, to the children, parents, teachers, custodian, and Superintendent Frank R. Adams and the School Board, we thank you.

## HOME ECONOMICS

(Avis P. Winchell)

I hereby submit the following report of the home economics department of the public schools for the year 1949-1950. Classes began September 12th. with a schedule and time allotment similar to that of last year. The present enrollment is 104 pupils, of which 55 are in the seventh grade, and 49 in the eighth. This is a slight increase over that of last year, but because of the changes made in the program at Arlington School, classes from North Hall are larger than formerly.

The plan of work for this year is quite similar to that outlined for last year. According to our state course of study, units appropriate for each grade are listed and it is advised that each teacher select at least one unit from each of the fields represented in home making education: foods, clothing, housing, home-management, and family living. Much is left to the teacher as far as final choice is concerned. Because classes in St. Johnsbury meet only two days each week, we lack sufficient time to include work in each area, but effort is made to prevent any whole year being devoted to a particular phase of the work.

Several small articles of equipment have been added to the department. A set of text books "Young Folks at Home" is being enjoyed by all groups. The boys in the woodworking department, under the direction of Mr. Herbert Wormwood, built a storage cabinet for large pieces of equipment.

The elementary school holds a strategic position for strengthening education for family living. School experiences must be made an integral part of living together in the school, yet developed so that the child is led to see the relationship between them and her home living. I wish to express my most sincere thanks and appreciation to those parents, who realizing this fact and that the "in school" experiences are necessarily limited, can see these as activities to be continued in the home for greatest development and training. Also I wish to thank our superintendent, Mr. Adams, and the members of the school board for all help and cooperation they have given me this past year.

### SUMMER ST. SCHOOL

(Velma J. McAllister, Prin.)

(Mrs. Helen Stearns, Prin.)

We hereby submit the following report of Summer Street School:

The fall term opened with an enrollment of 386. The teaching staff remained the same with one exception. Mrs. Fannie Silsby transferred from Grade 8 in Arlington to replace Miss Holmes in the history department.

Many activities have been carried out in both buildings during the year. Parents' Night was observed at North Hall and a party was given at Christmas time for parents and friends.

The Student Government now in its third year of operation has done much to develop responsibility among its members.

The School Patrol with its efficient captain, Jean McGregor, is functioning satisfactorily.

Class lessons in violin and wind instruments are held each week under the able direction of Mr. J. Leo Messier. An orchestra made up of pupils from grades 7 and 8 is supervised by Miss Teresa Grace.

Children are receiving a splendid background from classes held twice a month at the Museum. They are fortunate, indeed, in having Mr. Mold as their instructor.

Much credit is due Mrs. Eunice Martin for her efficient work as school nurse. Periodic health check-ups of pupils have been carried out with many of our local physicians giving generously of their time.

Approximately 150 bottles of milk are served each day.

Mrs. Burgess, Supervisor of Physical Education, was invited to meet with our teachers to help in planning a physical education program providing for pupils at different grade levels.

The skating rink on the common is providing healthful recreation for pupils during their leisure time when weather permits.

New books have been added to our school libraries.

Through the splendid cooperation of Mr. Adams, school directors, and P.T.A. new playground equipment was purchased last fall and is in operation at this time. Visual aid materials are on order and will be a valuable addition to our school.

To Mr. Curtis and Mr. Gilfillan, our janitors, go much credit for their help in making our classrooms comfortable.

In closing we wish to thank Superintendent Adams, school directors, Dr. Smith of the Academy, teachers, parents, pupils and all others for their fine cooperation during the school year.

### SCHOOL HEALTH PROGRAM

(Eunice Martin, R.N.)

We have several more clinics to be held for immunizations and physical examinations; Summer St. School, North Hall, East St. Johnsbury and the Center School.

The School Health Program is in affect again. They are assisting the doctors in the clinics.

The physicians of St. Johnsbury are giving hours every week to the school children and are very interested in having their health safeguarded.

The schools have not had the state audiometer yet.

## INDUSTRIAL ARTS

(Gilbert D. Johnson)

I herewith submit my annual report of the Industrial Arts Department.

The most emphasis is on woodwork as a little knowledge of this material and the tools with which it is worked will probably be of more use to a greater number. Plastic is still a popular material with the boys and is a growing branch of our shop work, rightfully so because of its growth in industry and every day use. It has been a slow process collecting electrical supplies with which to start that subject, we should have enough to start work in it soon.

This fall both the 7th. and 8th. grades had about eight weeks of free hand sketching to learn the fundamentals of Blue Print Reading and Drafting.

Although shop work is only scheduled for the 7th. and 8th. grades, several of the teachers in the Summer Street Building carry on projects with their classes for which they borrow tools from the shop or send a few boys in to use the shop facilities.

Last spring term the classes were mostly a good average size for the shop with a few rather small ones. This Fall with the combining of the Arlington and North Hall classes they run much larger with several taxing the shop facilities to the limit. Classes from all the schools are larger making the total number of boys taking shop about eighteen more than last year. This trend will continue for ten or more years with the biggest increases starting in about five years. At that time there will have to be more space and equipment or a cut back in the amount of shop work each boy will receive. Now is the time to think about this problem and plan for the future so we will be in a position to give as much or more to those coming along.

### ATTITUDES AND PRACTICES

Parents of today whose sons and daughters attend high school expect the high school to provide not only intellectual training but guidance in basic problems of life. The great underlying principle of the wide concept is to teach the pupil while teaching the subject. The teacher's personal influence upon the pupil is so strong that he must live the pattern he wishes his pupils to follow.

The teacher will find in his class pupils at many levels of maturity. The teacher must take these pupils just where he finds them and lead them onward from that point. The advantages of forming a habit of affirmative thinking early in life are countless for this habit will bring results in every aspect of education and life.

Parents, teachers and boys and girls themselves all share in educating youth for democratic living through self-discipline. America needs self-disciplined men and women.

Before taking radical steps, however, the nature of the pupil must be considered. It is not for the teacher any more than for the parent or for the state, to determine exactly what interests every young person should have or how rapidly he should develop emotionally and socially. Teachers have no moral right to try to mold all pupils into one form or pattern.

I wish to thank the School Directors, Principals, Special Teachers, P.T.A. Organizations and parents for their cooperation and assistance during the past year.

Respectfully submitted,

FRANK R. ADAMS,

Superintendent.

# WARNING

## FOR ANNUAL TOWN AND TOWN SCHOOL DISTRICT MEETING, TUESDAY, MARCH 7, 1950

The citizens of St. Johnsbury who are legal voters in Annual Town and Town School District Meeting are hereby notified and warned to meet at the Vermont State Armory, in the Village of St. Johnsbury on Tuesday, March 7, 1950, at nine o'clock in the forenoon to transact the following business:

ARTICLE 1. To elect all Town and Town School District Officers required by law. (Polls on this Article to close at 2 p. m.)

ARTICLE 2. To see if the Town will appropriate a sum of money to be used in defraying the expense of a proper observance of Memorial Day, and if so, how much?

ARTICLE 3. To see if the Town will vote to appropriate a sum of money not to exceed \$1,500.00 toward the expense of a District Nurse for the ensuing year.

ARTICLE 4. To see if the Town will appropriate the sum of \$6,000.00 toward the expense of maintenance of the Athenaeum for the ensuing year.

ARTICLE 5. To see if the Town will appropriate the sum of \$5,000.00 toward the expense of maintenance of the Fairbanks Museum of Natural Science for the ensuing year.

ARTICLE 6. To see what action the Town will take pursuant to Section 3649 of the Vermont Statutes of 1947 with respect to appropriating such sums of money as may be deemed necessary for the support of Brightlook Hospital, a non-sectarian hospital established within the County of Caledonia.

ARTICLE 7. To vote upon the following questions:

Shall licenses for the sale of malt and vinous beverages be granted in this town?

Shall spirituous liquors be sold in this town? (By Ballot. Polls on this Article to close at 3 p. m.)

ARTICLE 8. Shall Eastern Daylight Saving Time be observed in the Town of St. Johnsbury from 2 a. m. on Sunday, April 23, 1950, to 2 a. m. on Sunday, September 24, 1950? (By ballot. Polls on this Article to close at 2 p. m.)

ARTICLE 9. To see if the Town will vote to collect 1950 taxes by its Treasurer and if so, to fix a date or dates for the payment of taxes; and to direct the Treasurer, as receiver of taxes, to deduct a per cent to be fixed by vote, not to exceed 4% from the tax of a person who pays his taxes on or before such date or dates.

ARTICLE 10. To see if the Town will appropriate the sum of \$25.00 per mile, or \$2,073.00 to take advantage of the extra \$25.00 per mile granted to the Town by the State under Sec. 4913 of the Vermont Statutes.

ARTICLE 11. To see if the Town will vote to raise money to defray the expenses and liabilities of the Town for the current year, and if so, how much?

ARTICLE 12. To see if the Town will vote to raise money for the maintenance of its highways, and if so, how much?

ARTICLE 13. To see if the Town School District will vote to pay the tuition of its advanced pupils attending a High School or Academy, including St. Johnsbury Academy, to an amount not to exceed One Hundred Eighty Dollars per pupil per school year, as provided by Sec. 4339 of the Vermont Statutes, Revision of 1947.

ARTICLE 14. To see if the Town School District will vote to raise money to defray the expenses of maintenance of its public schools, and if so, how much?

ARTICLE 15. To see if the Town will vote to authorize and instruct its Selectmen and Treasurer to borrow money, if necessary, to defray current expenses of the Town, prior to the collection of 1950 Town taxes.

ARTICLE 16. To see if the Town will authorize the auditors of the Town to employ the services of an accountant from the office of the Auditor of Accounts as provided for in Vermont Statutes, Revision of 1947, Sections 3603 to 3608 inclusive.

ARTICLE 17. To transact any other business proper to be brought before said meeting.

FRED G. JOHNSON

MILTON F. KUMPF

STEPHEN C. CREE

Selectmen of the Town of St. Johnsbury.

Dated at St. Johnsbury, Vermont this 20th day of February,  
A. D. 1950.
